Regional Administrator
EPA Region 9

In accordance with 40 CFR Part 58.26, this letter certifies that the ambient air monitoring data for the Great Basin Unified Air Pollution Control District (GBUAPCD) contained in the EPA Air Quality System (AQS) as of April 25, 2013 are accurate and complete for the calendar year 2012. Both ambient concentration data and the quality assurance data have been completely submitted to AQS. These data are accurate to the best of my knowledge taking into consideration the quality assurance findings for the calendar year 2012. A summary report generated by AQS would, therefore, depict accurate summary statistics for 2012. Both precision and accuracy data for all GBUAPCD monitoring of criteria pollutants in 2012 have also been submitted to AQS.

Attached are copies of the AQS Quick Look All Parameters Report (AMP450NC) and the Data Certification Report (AMP600).

Sincerely,

Theodore D. Schade
Air Pollution Control Officer
